THE POWER THAT NOBODY SEES
How to Discover His Type

(And What It Really Means)

Welcome,

You are now holding a complimentary copy of a book designed to introduce you to the fascinating world of numerology. This is not just a book—it is your first step into understanding the hidden patterns that shape our lives.

Before we begin, allow me to introduce myself.

My name is Suzana Berić, also known under the pseudonym Suzy Q. Together with the G-Lab team, led by Dragan Milošević, our mission is to guide you through a carefully crafted series of books. Through these pages, we will help you understand not only the basics of numerology, but also how to properly interpret and use it in your everyday life.

This book serves as your foundation.

By choosing to explore further and purchasing the first book in our series, you will begin to see the true depth and reality of numerology—how numbers influence behavior, relationships, decisions, and life paths in ways most people never notice.

In our work, we focus on one of the most intriguing aspects of numerology: understanding people—especially partners. Through our system, you will learn how to recognize patterns, decode personalities, and gain insights that can transform the way you see others.

Once you start recognizing the power of numbers, something remarkable happens—you begin to see them everywhere. And with that awareness comes clarity.

We truly believe that after this first step, you will naturally want to explore the full collection. Each book is designed to deepen your understanding, bringing you closer to a complete picture.

It will be our pleasure to be part of your journey.

With warm regards from the entire G-Lab team—and from me, Suzy Q.

Enjoy the experience.

And trust me… You will.

Now, let’s continue...

INTRO

Why You Feel Confused About Him

You met him.

At first, everything felt natural.
There was attraction.
There was curiosity.
There was something… pulling you in.

And then—

Something stopped making sense.

He acts one way…
then suddenly changes.

He shows interest…
then pulls away.

He opens up…
then becomes distant.

And without even noticing—

You start asking yourself:

• “Why is he like this?”
• “Did I do something wrong?”
• “Why is he so different from others?”

You replay conversations.
You analyze every message.
You try to find meaning in his silence… and in his actions.

But nothing feels completely clear.

Here is the truth:

He is not random.
He is not inconsistent.

It only feels that way—because you don't see the pattern yet.

He is acting according to his type.

A deeper structure.
A predictable way of thinking, reacting, and connecting.

And once you understand his type…

Everything changes.

Confusion becomes clarity.
Mixed signals become patterns.
Emotions become understandable.

You stop guessing.

You start knowing.

And from that moment—

You don't just experience his behavior…

You understand it.

WHAT THIS SYSTEM IS

This is not guesswork.

This is not intuition, luck, or random advice.

This is a structured system—built on patterns that repeat across behavior, emotions, and relationships.

Every man expresses certain key dynamics:

• attraction
• connection
• distance

But not randomly.

In a predictable, consistent way.

What may feel confusing on the surface…

Often follows a clear internal logic.

The problem is not that there is no pattern—

The problem is that most people don't recognize it.

This system is designed to reveal that pattern.

To show you what is happening beneath the surface.

Because when you observe closely—

you begin to notice something powerful:

Men may be different as individuals…
But their behavior falls into recognizable groups.

And those patterns can be grouped into 9 types.

Each type follows its own structure.

Its own logic.

Its own way of interacting with the world.

Each type:

• desires differently
• communicates differently
• handles emotions differently
• pulls away differently
• connects differently

This is where numerology comes in.

It gives structure to what feels unpredictable.

It explains what feels confusing.

And it turns behavior into something you can understand—

instead of something you have to guess.

This is not about controlling someone.

It’s about understanding them.

And once you understand the pattern—

Everything changes.

WHAT IS A NUMBER TYPE

In numerology, numbers represent patterns.

Not random digits.
Not abstract symbols.

But structured, repeatable ways in which people think, feel, and behave.

A number is not just a number…

It is a behavioral code.

A pattern that shapes reactions, decisions, emotional responses, and connections with others.

Each number (1–9) represents:

a psychological pattern
a way of reacting under pressure
a way of expressing emotions
a way of loving and connecting

That means—

when we say:

“Type 1” or “Type 5”

We are not labeling someone.

We are not putting them in a box.

We are identifying their core pattern—

the invisible structure behind their behavior.

Because people may look different on the surface…

But underneath, they follow recognizable patterns.

They repeat reactions.
They follow emotional habits.
They respond in predictable ways.

And once you understand the pattern—

You stop being surprised.

You stop asking “why.”

You start recognizing.

This is what a number type truly is.

Not a limitation—

But a key to understanding.

HOW TO CALCULATE HIS NUMBER

This is where things become real.

This is where you stop reading…
and start discovering.

To find his number, you only need one thing:

His date of birth.

That's it.

Because within that date—his pattern is already written.

Example:

Date: 14.07.1992

Step 1:
Add all digits together:

1 + 4 + 0 + 7 + 1 + 9 + 9 + 2 = 33

Step 2:
Reduce it to a single number:

3 + 3 = 6

His type = Type 6

That number is not random.

It represents how he thinks, reacts, connects, and behaves.

Just remember:

Add all digits
Reduce to one number (1–9)

Simple process.
Powerful result.

Quick examples:

• 25 → 2 + 5 = 7
• 18 → 1 + 8 = 9
• 30 → 3 + 0 = 3

Special case:

If you get 11, 22, or 33—
you can reduce them further for simplicity.

Once you calculate his number…

You're no longer guessing who he is.

You're starting to see him clearly.

WHAT EACH NUMBER MEANS

1 – Leader

Strong, direct, dominant

2 – Empath

Emotional, sensitive, caring

3 – Expressive

Charismatic, fun, unpredictable

4 – Structured Man

Stable, controlled, serious

5 – Free Spirit

Independent, restless, exciting

6 – Caretaker

Protective, giving, supportive

7 – Thinker

Analytical, distant, deep

8 – Powerful Man

Intense, controlling, ambitious

9 – Giver

Selfless, calm, emotionally deep

WHY THIS MATTERS

Without this system…

You guess.
You assume.
You try to connect the dots—but nothing fully makes sense.

You interpret behavior emotionally.

You take things personally.
You overthink his words.
You question his actions.

You ask yourself:
"Did I do something wrong?"
"Why did he change?"
"What does this mean?"

And that leads to confusion.

Mixed signals feel overwhelming.
Silence feels like rejection.
Distance feels like loss.

You react… without truly understanding.

But with this system…

Everything becomes clearer.

You understand:

WHY he behaves the way he does
WHY he reacts differently than you expected
WHY he pulls away—or comes closer

You stop guessing.

You start recognizing patterns.
You see logic where there was once emotion.
You gain clarity where there was once doubt.

And that changes the way you experience everything.

Because when you understand the pattern…
you understand the person.

CONNECTION TO THIS SERIES

Each book in this series is focused on one specific type.

Not general advice.
Not vague explanations.
But precise, structured insight into how one type truly thinks, feels, and behaves.

Inside each book, you will discover:

• why he confuses you
Not because he wants to—but because he experiences the world differently than you expect.

• how he shows desire
Not always through words, but through actions, patterns, and subtle signals you may have missed.

• what pushes him away
Small things that seem insignificant… yet have a powerful effect on his behavior.

• what makes him stay
The emotional triggers, stability, or dynamics that create long-term connection.

• how to communicate with him
So he actually understands you—without resistance, misunderstanding, or emotional distance.

• his hidden patterns
The unconscious behaviors he repeats… even when he doesn't realize it himself.

Each page is designed to give you clarity.

To replace confusion with understanding.
To replace guessing with certainty.

Because once you understand his type—
you stop trying to figure him out…

…and start knowing exactly what you're dealing with.

WHAT YOU WILL DISCOVER

You will stop asking:
“Why is he like this?”
“Why doesn’t he understand me?”
“Why does he act this way?”

And you will start seeing:

“This is how his type works.”
“This is how he thinks.”
“This is how he reacts.”

And in that moment—everything changes.

Because confusion disappears.

You no longer take things personally.
You no longer guess what he meant.
You no longer feel lost in mixed signals or unexpected reactions.

Instead, you begin to recognize patterns.

You understand why he pulls away.
Why he stays silent.
Why he reacts strongly—or not at all.

And most importantly—you understand what it actually means.

This is the difference between guessing and knowing.

Between reacting and understanding.

Between emotional chaos… and clarity.

Once you see it, you can’t unsee it.

And from that point on—you don’t just experience relationships…

You understand them.

HOW TO USE THIS SERIES

This is not just one book.

This is a complete system.

A collection designed to help you understand different personality types—step by step, clearly, and practically.

Each series contains 9 types.

Each type represents a different pattern of behavior, thinking, and emotional response.

Series One focuses on understanding men.

Series Two expands that understanding—giving you deeper insight, additional perspectives, and broader application.

How to use this system:

Step 1 – Identify His Number

Everything starts here.

Calculate his number using his date of birth.

This tells you which type you are dealing with.

Step 2 – Start With His Type

Go directly to the book that matches his number.

This is where you will find the most accurate and relevant insights.

Not general advice—

But specific understanding of his behavior.

Step 3 – Expand Your Perspective

Once you understand his type—

Explore other types.

Why?

Because people interact.

And understanding multiple types gives you a complete picture of relationships.

Step 4 – Use Both Series Together

The real power comes when you combine knowledge.

One series shows you the pattern.

The other deepens your understanding.

Together—they give you clarity.

Step 5 – Apply in Real Life

This is not theory.

Observe behavior.
Recognize patterns.
Adjust your communication.

You will start seeing results quickly.

Important:

This system is not about labeling people.

It is about understanding them.

You are not collecting books.

You are building awareness.

And with each book—

You see more.
